

### SELKIRK MTB MARATHON - 8th June 2013 - PROVISIONAL RESULTS

This was a 'Sportive' style event, not a race, so the timing info is really for your interest and entertainment only!. That's why we've published the results in race number order. Also, we know some people will (for example) have entered the 75km event, but bailed out onto the 50km option, or similar variations - which is absolutely fine by us - it's all about having fun. Their results are listed according to the course class they entered.

Apologies for the problems with the optional 'enduro' stage - the 'Start' timing points were in place, but the 'Finish' timing points jumped out of the rucksack of one of our motorcycle marshalls, and are currently lost on Yair Hill somewhere. If you find 'em, please let me know - there's a beer in it for you :)

We had a couple of dibber mix-ups - we think we caught them all at the finish line, but please let us know if you don't appear here, or your result is wildly wrong (sorry - not "my Garmin/insert GPS device of your choice reckons I was 13 seconds quicker" type messages though!)
